

INSTRUCTIONS: K-1390 BRAKE LINING GAUGE

FEATURES:

- 1 – Calipers
- 2 – Scale
- 3 – Slider

INSTRUCTIONS FOR USING THE BRAKE LINING GAUGE

1. Close tool and pull slider down until it stops.
2. Insert calipers into space between brake drum and brake shoe backing plate, then allow tool to open until it is touching both surfaces. The slider will be pushed along scale.
3. Close tool, leaving slider in place, and remove from brake area. Keeping the tool closed, observe position of slider on scale to read measurement. The reading is taken from the edge of slider with the finger tab sticking up.
